

MICHAEL JOHN DANVILLE ENCISO

Tubay, Agusan del Norte • +639813525629 • encisomichael4@gmail.com

EDUCATION

Bachelor of Science in Information Technology
Father Saturnino Urios University, Butuan City

Aug 2022 – May 2026

TECHNICAL SKILLS

- **Frontend & Mobile:** Javascript, HTML, CSS, React, React Native, Tailwind CSS
- **Backend & Architecture:** Laravel, MySQL, NoSQL, RBAC
- **Design & Dev Tools:** Figma, Github, Docker, Cursor, Google Antigravity

EXPERIENCE

Strategic Communications Office
Full-Stack Developer Intern (OJT)

Jan 2026 - Apr 2026

Father Saturnino Urios University, Butuan City

- Developed the official FSUU website within a 4-person team, contributing to full-stack logic while streamlining the design-to-production pipeline by migrating legacy layouts to responsive, Figma-based components that align with university standards.

Collaborative Full-Stack Developer | UrianWorks E-Commerce
(Academic Project - Team of 3)

Jan 2025 - Apr 2025

Father Saturnino Urios University, Butuan City

- Co-developed a student e-commerce platform using Laravel 12 and React 19, architecting distinct buyer and seller roles alongside a dual-authentication system with session-based and Laravel Passport API guards for real-time analytics and user moderation.

Literary Sports Coordinator

Aug 2023 - May 2024

Computer Studies Program - Supreme Student Government

Father Saturnino Urios University, Butuan City

- Served as an appointed departmental coordinator, bridging communication between student government executives and event committees while supervising volunteer teams.

TECHNICAL PROJECTS

PALIHOG App (Startup Concept) | Capstone Project (Primary Developer)

Aug 2025 - Dec 2025

Father Saturnino Urios University, Butuan City

- Led the technical development of a campus task-management Minimum Viable Product (MVP), successfully building the mobile application using React Native to allow users to browse and accept tasks.
- Developed the web-based admin portal using Laravel and integrated a Firebase database to ensure real-time data synchronization across all platforms.
